

Product Designer with 3+ years of experience designing enterprise SaaS platforms, AI-powered products, and workflow applications. Skilled in UX research, interaction design, information architecture, usability testing, and scalable design systems using Figma. Experienced collaborating with product managers and engineers in Agile environments to deliver intuitive user experiences.

EDUCATION

Degree	Institute	CGPA/Percentage	Year
M.Des	Indian Institute of Technology, Guwahati	8.48	2024 - 2026
B.Tech	KIET Group of Institutions, Delhi NCR	8.50	2016 - 2020
Senior Secondary	Navals National Academy, Kushmi	70.00%	2014

EXPERIENCES

- Congruex Asia Pacific LLP

UX Designer

Jun 2021 - Jul 2023

Mohali, Punjab (Hybrid)

– Led UX audits and redesign of CGIS software used by telecom engineers, identifying critical usability, navigation, and information-architecture issues to reduce task complexity.

– Designed user journeys, wireframes, interaction flows, and high-fidelity prototypes for network-planning modules, enhancing navigation and reducing user errors for faster project execution.

– Applied user-centred design principles to translate complex engineering workflows into intuitive interfaces, ensuring design feasibility and effective developer handover.

– Conducted heuristic evaluations and usability studies to validate design improvements, supporting iterative enhancement of the enterprise platform.
- OPPO Mobiles India Pvt. Ltd.

Supply Quality Assurance

Feb 2020 - Aug 2020

Greater Noida, Uttar Pradesh (On-site)

– Applied root-cause analysis and user-behaviour insights to identify usability breakdowns across three smartphone assembly lines, recommending process changes that reduced critical defects.

– Collaborated with cross-functional manufacturing and quality teams to redesign process workflows, improving operator efficiency and reducing cycle time by 6–10 hours per release.

INTERNSHIPS

- TVARAH Private Limited

Product Design Intern

Jan 2026 - June 2026

Bangalore (Remote)

– Designed a scalable design system with reusable components and interface standards to ensure visual consistency, usability, and accessibility across a recruiter SaaS platform.

– Built user journeys, information architecture, and interactive prototypes for AI-enabled features (resume/JD parsing and matching), simplifying complex recruiter workflows.

– Translated stakeholder requirements and behavioural insights into practical design improvements, collaborating closely with product and engineering teams for seamless implementation.
- BuildUP India

Summer Intern

May 2025 - Jul 2025

Delhi (Hybrid)

– Applied an end-to-end user-centred design process—including UX research, ideation, wireframing, and prototyping—to solve real-world product challenges in the public-service domain.
- Delhi Technological University

User Experience Intern

Dec 2024

Delhi (Remote)

– Conducted user interviews and journey mapping to identify pain points, navigation issues, and accessibility challenges in the campus commute system, providing actionable design recommendations.

PROJECTS

- Ferry Management System

ERP Dashboard

Oct 2025 - Jan 2026

– Designed a role-based analytics dashboard for ferry operations, conducting stakeholder interviews to map user flows for ticketing, boarding, and reporting.

– Improved workflow efficiency through usability testing, reducing errors and speeding up decision-making for large-scale transport operations.
- Pebble

AI-powered Habit Formation Mobile Application

Aug 2025 - Oct 2025

– Conducted behavioural analysis and user research to identify motivation drop-offs, designing a streak-based engagement system validated through usability testing with 10 users.

DESIGN SPRINTS

- **Developer Alerts interface AI Agent** Apr 2025
48-hour Challenge
 - Designed an AI-powered security alert dashboard enabling developers to analyse and resolve issues faster through a clear, actionable UI—demonstrating ability to design for AI-enabled products.
- **Spotify** Feb 2024
48 hour Classroom challenge
 - Improved Spotify user experience by enhancing navigation and optimizing the song queue management features.

SKILLS

- **UX User-Centred Design:** UX Research, Usability Studies, Heuristic Analysis, User Interviews, Journey Mapping, Information Architecture, Wireframing (Low/High-Fidelity), Interaction Design, A/B Testing, Interactive Prototyping.
- **Design Systems Standards:** Scalable Design Systems, Reusable Components, Interface Standards, Design Tokens, Responsive Design.
- **Accessibility Inclusive Design:** Applying accessibility principles, inclusive-design practices, and usability standards to digital platforms.
- **Tools:** Figma (Advanced), Adobe Photoshop, Miro, Procreate, Sketch, Planner, Framer.
- **AI-Assisted Design Tools:** ChatGPT, Gemini, Claude, Notion AI, Wispr Flow (for AI-assisted research and design workflows)
- **Collaboration:** Stakeholder Management, Cross-functional Collaboration, Design Documentation, Presentation, and Developer Handoff.
- **Front-End Awareness:** HTML, CSS, JavaScript, React, Angular REST API, Agile, Dev Mode — understanding implementation constraints

KEY COURSES TAKEN

- **Intermediate to Advanced: Professional Figma UI / UX Design Specialization:** Completed advanced Figma Pro training through Coursera and Skillshare, building expertise in responsive UI design, design systems, prototyping, UI motion, variables, design tokens, and developer handoff.
- **Interaction Design:** Human-Centered Design, Interaction Design Principles, Visual Hierarchy, Responsive Design, Conducting Usability Testing, Journey Mapping, Mobile User Experience, User Research Methods.
- **System thinking:** Focusing on holistic analysis, Design Systems, complex problem-solving, and causal loop modeling to understand interconnections within dynamic systems.
- **Claude Design Fundamentals:** Completed Claude for Design, learning AI-assisted design workflows, design system creation, prompt engineering, and collaborative UX/UI design using Claude as a design co-pilot.

POSITIONS OF RESPONSIBILITY

- **Design Head:** Research & Industrial Conclave, IIT Guwahati Jan 2025 - Oct 2025
 - Led end-to-end UX and visual design strategy for a large-scale academic-industry event, managing a team of 7 designers and 10+ volunteers to deliver a consistent digital and on-ground user experience across all touchpoints.
- **Design Mentor:** Baranwal Design, Self-initiated Aug 2024 - Present
 - Mentored 70+ design aspirants in National design entrance exams (UCEED, CEED, NID), portfolio storytelling, and interview preparation, helping candidates secure admissions to IITs and NIDs through structured design-thinking and critique sessions.
- **President:** KIET Design Club, KIET Group of Institutions Feb 2017 - Apr 2020
 - Built and led a student design community in Bachelor's, organizing hands-on workshops and peer-learning sessions focused on problem-solving, prototyping, and digital design fundamentals.

ACHIEVEMENTS

- **India Skills, NSDC:** Represented Uttar Pradesh at the North Zone level in Industrial Design Technology, competing in a national-level design challenge focused on product innovation and problem-solving. Nov 2021
 - **Innotech, KIET:** Secured 1st place in a design competition, recognized for excellence in digital modeling and design presentation. Nov 2019
 - **KAPPTec, AKTU:** Won 1st place in a technical poster and design communication competition for clearly presenting complex design concepts. Apr 2019
-
